D.O. No.1397/160, dated the 29th October 1926, from Lt. Col. J. McPherson, I.M.S., Residency Surgeon, Bangalore.

A sum of Rs.10,000/- has been provided in the current year's Assigned Tract budget on account of extra quarters for Lady Asst. Surgeons, Lady Curzon Hospital. The Residency Surgeon says that the money available can be much more usefully devoted to a very urgent scheme viz. a Water Carriage drainage system for the Lady Curzon Hospital.

Sec 9
143-26

In para. 4 of his memo. No.1305/160, dated the 12th Oct. 1926 the Residency Surgeon has stated as follows:-

" It may be noted that the figure of Rs.60,000/- mentioned appears far in excess of the actual requirements for this project, as it is hoped to complete the most urgent portion of this scheme this year which affects the Lady Curzon Hospital, with money already at our disposal from this year's grant".

x x x x x

"Probably Rs.25,000/- instead of Rs.60,000/- will suffice to complete the scheme". Therefore we have provided Rs.25,000/- in the revised programme submitted to the Govt. of India with sl.11/143-26.

It appears from the above that the cost of the whole scheme amounts to Rs.10,000/- +25,000= Rs.35,000/-

Para 434 (c) of P.W.D. Code lays down that " A group of works which forms one project shall be considered as one work, and the necessity for obtaining the sanction of higher authority to a project which consists of such a group of works is not avoided by the fact that the cost of each particular work in the project is within the powers of sanction of the Local Government." It appears therefore that the sanction of the Govt. of India is necessary to the proposal.

Under para. 432(1) (2) the Hon'ble the Resident has got power to accord administrative approval to public works up to Rs.20,000/-.

If approved the Residency Surgeon may be informed that the sanction of the Government of India is necessary to the proposal and that the Municipal Executive Engineer may be asked to prepare plans and estimates for the whole work.

Please see enc. to sl. 4/139-26.

The amount available is Rs.10,085, and not Rs.10,215/ as stated by the Residency Surgeon.

Please see sls. 34 and 35 and the office notes in paras 18 to 23. The Residency Surgeon was asked to send plans and estimates the whole drainage scheme in the Bowring and Lady Curzon Hospital for submission to the Govt. of India.

With the P.W.D. he has submitted plans and estimates amounting to Rs. 17,163/- for carrying out the drainage scheme in the Lady Curzon Hospital. The balance available in the current year's Medical budget is now stated to be Rs. 16,617*. In view of reasons given in para 20 of the office notes the estimates cannot be sanctioned by the Resident. If approved the Residency Surgeon's attention may be drawn to Sl 35/114-26 and he may be asked to submit

Dear Evans-Gordon,

For reasons connected with the carrying out of another scheme, I requested the Garrison Engineer to defer alterations to the quarters of the Lady Doctors in the Lady Curzon Hospital. The money available can be much more usefully devoted to a very urgent scheme viz. a Water Carriage drainage system for the Lady Curzon Hospital. The ground has been surveyed and preliminary plans made out, and it is found that the sum of Rs.10,215/- to our credit in this year's Budget will amply suffice to install the Water Carriage System. Would you kindly obtain sanction of the Resident to our continuing with this most necessary work. It has already been referred to in my No.1305/160, dated 12th.October 1926.

Yours Sincerely
J. Patterson.

It appears from your Memorandum No.1305/160, dated the 12th October 1926 that the cost of the whole scheme will amount to about Rs.35,000/- and that you propose to spend about Rs.10,000/- during the current year on a portion of the scheme. Paragraph 434(c) of Public Works Department Code lays down that "a group of works which forms one project shall be considered as one work and the necessity for obtaining the sanction of higher authority to a project which consists of such a group of works is not avoided by the fact that the cost of each particular work in the project is within the powers of sanction of the Local Government". Under paragraph 432 (1)(2) the Hon'ble the Resident has power to accord administrative approval to public works up to Rs.20,000/-. The sanction of the Government of India is therefore necessary to the proposal. I request that the Municipal Executive Engineer, Bangalore may be asked to prepare plans and estimates for the whole scheme for submission to the Government of India.

RECORD ROOM. It has been decided to keep my criminal records in the Civil Court Record Room. There are number of empty shelves which will be placed at my disposal. At present, the approach to the Record Room is a roundabout way and my Clerks have to pass through various portions of the District Court where Clerks work. There is a window without bars which just separates the Record Room and the room where my Clerks work. I suggest that windows may be removed and a doorway be placed there. This will be a great convenience to both the Courts. I request that the Municipal Engineer may kindly be asked to do this early after obtaining the orders of the District and Sessions Judge also in the matter. " Copy "

I have the honour to invite a reference to my letter No. 2797, dated 12-10-1926 and to request you to let me know when the alterations and improvements suggested therein will be effected by you. I request that the following piece of work may be taken up on hand at once and completed early as the same is urgently required. The sanction of the Hon'ble the Resident also may be kindly obtained by you, if necessary, for the execution of the work. At present, the Registrar of my Court holds his Court in the small room formerly used by the C. & M. Station Law Association. The room is so small that there is hardly any space for the parties who attend his Court on business to take their seats. There is a small verandah adjoining the Court-Room but it is open on all the three sides being exposed to sun and rain. I would suggest that the verandah space may be enclosed by steel wire netting on all the three sides, with a door at the entrance, so that I can have some thatties put on either side and few benches placed in the verandah for the convenience of the litigant public. The small building has also got to be whitewashed, and a window should be provided in the Registrar's chambers. If you can send over your Overseer to my office, my Registrar will point out the exact things to be done.

Sir,

Against the grant of Rs. 16,588-2-0 transferred by the Garrison Engineer under the head 32 Hospitals and Dispensaries estimates for Rs. 17,309/- have been sanctioned and are under execution. But a saving of about Rs. 2500/- is anticipated against the sanctioned estimates setting free about Rs. 1700/- of the grant for further expenditure. As improvements and repairs to roads and paths etc., within the Hospital premises are urgently ~~called for~~ required, please let me know at once if I may prepare estimate therefor and forward thereon for sanction. The approximate cost of these would amount to about Rs. 700/- Further repairs if any to cover the balance of Rs. 1000/- may be requisitioned for immediately.
